What is Acumatica?

Acumatica is the only cloud- and browser-based ERP solution that adapts to the needs of growing small and mid-sized businesses (SMBs) economically and securely.

Why use Acumatica ?

Adaptable

Spans a broad variety of industries, including Distribution, Manufacturing Retail/eCommerce, and Services (Professional, Business, Repair, and Not-for-Profit).

Seamless

All Acumatica application suites are web-based, integrate fully with one another, and use a centralized database.

Intuitive

The user interface and navigation—with tablet-friendly design and dynamic page layout—make working on any device fast and easy.

Collaborative

Integrated Document Management allows you to manage a central repository of documents and media.

Automated

Rules for workflows and approvals, which help maintain control, can be created throughout the system (e.g., sales and purchase orders).

Extendable

Functionality for specific needs (e.g., bar coding) are already in place and can be extended further through industry standard tools and APIs.

Insightful

All applications include easy to use reporting and self-service BI to quickly create personal dashboards,

Who is it for?

- Everyone in the organization
- C-level Executives
